Client - Medical Devices and Disposable Products Manufacturer

Challenges (Prior to Implementation)

- Expansion into new regions required a scalable financial and operational structure
- Lack of standardized master data, tax structures, and reporting frameworks across entities
- Risk of data duplication and inconsistencies without harmonized configuration
- No formal template or guidelines for rolling out new plants, storage locations, or profit centers
- Integration complexity with existing processes, interfaces, and reporting tools

Technologies Covered

SAP ECC 6.0 (SoH), SAP MM, SD, FICO, ABAP, SAP LSMW, SAP ALE, SAP Basis (Client Copy, Transport Management)

AMS Support Approach

- Performed detailed fit-gap analysis based on existing group company template
- Configured new company code, controlling area, plant, storage locations, and valuation areas
- Extended customer, vendor, and material masters using LSMW and ALE distribution
- Conducted unit, integration, and UAT testing with stakeholders from the new entity
- Ensured data harmonization through centralized configuration governance

Target Infrastructure

SAP ECC 6.0 on HANA, On-Premise Infrastructure, Existing Landscape with ALE Interfaces, Shared Master Data

Post-Implementation Highlights

- Achieved rapid go-live of the new company code with seamless process continuity
- Enabled standardized procure-to-pay and order-to-cash cycles across entities
- Improved financial consolidation and group-level reporting accuracy
- Reduced future rollout effort through a replicable template-based approach
- Strengthened overall SAP governance across multi-company setup
